PROFILE

Experienced and results-driven Web Developer adept at developing dynamic, innovative, and responsive web applications. I bring a proven track record of success in architecting solutions with PHP and Node.js, complemented by a comprehensive grasp of diverse frameworks always focused on deliver cutting-edge solutions.

EXPERIENCE

Web Developer, Velv @ Natixis Portugal – 2021-Present

I spearheaded the development and maintenance of internal websites that served thousands of users, including bank employees and management. These projects were critical in enhancing operational efficiency, improving employee communication, and facilitating seamless access to financial tools and information • *Wordpress Plugins, ReactJS, Bitbucket, Jira, AWS, MySQL, Jenkins*

Co-Founder, Hollow (hollow.pt) Portugal – 2020-2023

I led the development of a personalized educational platform combining multimedia tools and adaptive technologies. My efforts have enhanced access to quality education, reduced learning costs, and empowered students to take charge of their academic journeys, achieving measurable success.

Full-stack Developer, Webcomum Portugal – 2020-2021

Contributed significantly to creating advanced e-commerce platforms and institutional websites for various industries. My work focused on developing from scratch entire websites and custom features like booking systems, detailed management tiers, and complex integrations with CRM systems and analytics tools • *Yii2, Laravel, Tailwind, ReactJs, Gitlab, AWS, Docker, MySQL/Postgres*

Freelancer – 2018-2020

As a freelance web developer, I leveraged my comprehensive expertise to deliver customized web solutions to a diverse clientele, spanning startups, SMEs, and individual entrepreneurs. This role required a deep understanding of various industries, client needs, and the ability to manage projects independently from inception through to completion • *Laravel, Wordpress, NextJs, Flutter, Git, AWS*

Front-end Developer, Media KitCom Brazil – 2017-2018

Developing numerous landing pages for company events, crafting interfaces for e-commerce platforms, and standard institutional websites for clients • *Laravel, Bootstrap, HTML/CSS/JS, Git*

EDUCATION

Universidade do Porto, Portugal – Bachelor in Informatics and Computing Engineering

Porto, Portugal
